

Technology

S.C. Operation Military Kids Mobile Tech Lab

Partial Lab Setup

The Mobile Tech Lab (MTL) consists of 15 Dell laptop computers along with a laser printer, scanner, and a DVD recorder. The laptops can be networked and connected to the internet, if a connection is available. They are attached to each other via a wireless router.

The MTL is available to any youth group provided they have some sort of military connection: (members of their group have a parent in the Armed Forces (Army, Air Force, National Guard, Reserves, etc). If they do not have a military connection, they can provide a plan on how they will recruit National Guard and Reserve youth to get involved in the group's activities.

Other requirements:

- *Designated Point of Contact Person*
- *Have a secure place to store the MTL*
- *Provide a Project Proposal*
- *Produce a Final Project Report with Photos*

Programs Offered: - (based on availability of the instructor)

- *XP Windows (basic)*
- *Photography & Digital Darkroom*
- *GPS/GIS*
- *MS Money (Checkbook program)*
- *MS Streets and Trips*
- *Introduction to Excel*
